The meaning of meaning;; A study of the influence of language upon thought and of the science of symbolism, C. K Ogden

This is a new critical edition of *The Meaning of Meaning*, based on the first edition of 1923. It restores the version of the important 'Word Magic' chapter eliminated from all subsequent editions and illuminates the text by collating it with earlier serial publication, the holograph manuscript predating Ogden's collaboration with Richards, subsequent publications and Ogden's private correspondence.
