## **Quests of the Dragon and Bird Clan** Paul Kekai Manansala

Author Paul Kekai Manansala has researched ancient and medieval history for decades traveling to far corners of the world for clues about little-known ancient maritime voyaging and oceanic trade networks. He has collaborated and corresponded with recognized experts like Dr. Stephen Oppenheimer, author of *Eden in the East* and archaeologist Wilhelm Solheim in developing this ground-breaking study.

Manansala's book *Quests of the Dragon and Bird Clan* explores the history of an ancient maritime trade thalassocracy founded by peoples called **Nusantao**.

The Nusantao were intrepid seafaring people who learned to master celestial navigation in very early times. These oceanic adventurers interacted with other peoples included the Neolithic Yayoi who the author suggests used Nusantao **trade routes** in migrating to Japan.

Catastrophic events like sea flooding and volcanoes stimulated Nusantao exploration and migration further and further abroad. In the course of these wide-ranging travels, Manansala suggests that these sea explorers altered history in wide-ranging areas in ways never before explored.

For example, he claims that the legendary king Prester John of the Indies was an historical and not-so-legendary Nusantao king. Also he provides evidence that the *Holy Grail*, which most medieval texts claim came from, and returned to the Indies, was related to Nusantao spiritual culture.

*Quests of the Dragon and Bird Clan* has one-of-a-kind insights that you will not find any other history book!
