Handbook of Document Image Processing and Recognition

Handbook of Document Image Processing and Recognition

Handbook of Document Image Processing and Recognition

The *Handbook of Document Image Processing and Recognition* is a comprehensive resource on the latest methods and techniques in document image processing and recognition. Each chapter provides a clear overview of the topic followed by the state of the art of techniques used – including elements of comparison between them – along with supporting references to archival publications, for those interested in delving deeper into topics addressed. Rather than favor a particular approach, the text enables the reader to make an informed decision for their specific problems.
