Explores the potential for trade unions to defend the socioeconomic rights of women. Making Globalization Work for Women explores the potential for trade unions to defend the socioeconomic rights of women in a global context. Looking at labor policies and interviews with people in unions and nongovernmental organizations, the essays diagnose the problems faced by women workers across the world and assess the progress that unions in various countries have made in responding to those problems. Some concerns addressed include the masculine culture of many unions and the challenges of female leadership within them, laissez-faire governance, and the limited success of organizations working on these issues globally. Making Globalization Work for Women brings together in a synthetic and fruitful conversation the work and ideas of feminists, unions, NGOs, and other human rights workers. “Making Globalization Work for Women is an illuminating, timely, and original collaboration among three prominent scholars that fills an important and missing niche in studies of transnational activism, global employment policy, and women’s work.” — Dorothy Sue Cobble, author of *The Other Women’s Movement: Workplace Justice and Social Rights in Modern America*
