Systems Analysis and Design

Alan Dennis, Barbara Haley Wixom

Systems Analysis and Design Alan Dennis, Barbara Haley Wixom

This textbook builds on the authors' professional experience as systems analysts and reflects a teaching experience that requires students to go out and develop a system, not merely read about it. It provides critical information about how to execute specific techniques. Each chapter of the text describes one part of the SA&D process, provides clear explanations on how to do it, gives a detailed example, and then has exercises for the students to practice.
