Economics of Regulation and Antitrust, 4th Edition

W. Kip Viscusi, John M. Vernon, Joseph E. Harrington Jr.

Economics of Regulation and Antitrust, 4th Edition W. Kip Viscusi, John M. Vernon, Joseph E. Harrington Jr.

This new edition of the leading text on business and government focuses on the insights economic reasoning can provide in analyzing regulatory and antitrust issues. Departing from the traditional emphasis on institutions, *Economics of Regulation and Antitrust* asks how economic theory and empirical analyses can illuminate the character of market operation and the role for government action and brings new developments in theory and empirical methodology to bear on these questions.

The fourth edition has been substantially revised and updated throughout, with new material added and extended discussion of many topics. Part I, on antitrust, has been given a major revision to reflect advances in economic theory and recent antitrust cases, including the case against Microsoft and the Supreme Court's Kodak decision. Part II, on economic regulation, updates its treatment of the restructuring and deregulation of the telecommunications and electric power industries, and includes an analysis of what went wrong in the California energy market in 2000 and 2001. Part III, on social regulation, now includes increased discussion of risk-risk analysis and extensive changes to its discussion of environmental regulation. The many case studies included provide students not only pertinent insights for today but also the economic tools to analyze the implications of regulations and antitrust policies in the future. The book is suitable for use in a wide range of courses in business, law, and public policy, for undergraduates as well at the graduate level. The structure of the book allows instructors to combine the chapters in various ways according to their needs. Presentation of more advanced material is self-contained. Each chapter concludes with questions and problems.

This book which can be qualified as The Hungry Slopes can get you closer in becoming precious person. By looking upward and review this book you can get many advantages.

Marian Buell:

As a college student exactly feel bored for you to reading. If their teacher requested them to go to the library in order to make summary for some book, they are complained. Just little students that has reading's spirit or real their hobby. They just do what the educator want, like asked to go to the library. They go to at this time there but nothing reading significantly. Any students feel that reading is not important, boring and can't see colorful images on there. Yeah, it is to become complicated. Book is very important in your case. As we know that on this time, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore , this Economics of Regulation and Antitrust, 4th Edition can make you sense more interested to read.
