Call Me Ishmael

Charles Olson

Call Me Ishmael Charles Olson

First published in 1947, this acknowledged classic of American literary criticism explores the influences—especially Shakespearean ones—on Melville's writing of *Moby-Dick*. One of the first Melvilleans to advance what has since become known as the "theory of the two *Moby-Dicks*," Olson argues that there were two versions of *Moby-Dick*, and that Melville's reading *King Lear* for the first time in between the first and second versions of the book had a profound impact on his conception of the saga: "the first book did not contain Ahab," writes Olson, and "it may not, except incidentally, have contained Moby-Dick." If literary critics and reviewers at the time responded with varying degrees of skepticism to the "theory of the two *Moby-Dicks*," it was the experimental style and organization of the book that generated the most controversy.
