Creating a Learning Society: A New Approach to Growth, Development, and Social Progress (Kenneth J. Arrow Lecture Series) Joseph E. Stiglitz, Bruce C. Greenwald

Since its publication *Creating a Learning Society* has served as an effective tool for those who advocate government policies to advance science and technology. It shows persuasively how enormous increases in our standard of living have been the result of learning how to learn, and it explains how advanced and developing countries alike can model a new learning economy on this example. *Creating a Learning Society: Reader's Edition* uses accessible language to focus on the work's central message and policy prescriptions. As the book makes clear, creating a learning society requires good governmental policy in trade, industry, intellectual property, and other important areas. The text's central thesis—that every policy affects learning—is critical for governments unaware of the innovative ways they can propel their economies forward.
