This field guide to the birds of Southern Africa incorporates many features to allow the reader to quickly and easily identify birds and find information about them. Each species account provides the bird's common name in English and Afrikaans, its scientific name, its Roberts number and its length. To help identify species, information is provided on plumage of the male, female and immature bird, typical behaviour, voice, habitat and nests and food. To make the information more accessible, entries are colour coded, reduced bird images make finding bird groups easier and a list of bird families in alphabetical order with their page references appears inside the front cover for quick reference. Recent discoveries and reclassifications are included and the text and maps have been updated.
