Handbook of Research on Global Corporate Citizenship Andreas Georg Scherer, Guido Palazzo

'This is a unique and eclectic set of essays on a vitally important (but often neglected) topic. The editors are to be congratulated in assembling a distinguished group of scholars, who carefully and expertly guide the reader through the various facets of global corporate citizenship. This is a "must" read for anyone interested in the social ramifications of the globalization of business activity.'

- John H. Dunning OBE, University of Reading, UK and Rutgers University, US

'Start with a fact - large corporations wield enormous power in the contemporary, globalized economy. Then note the hopes and fears that this fact inspired - the potential to harness the profit motive to social needs, but the fear that the profit motive can just as easily wreak havoc. And finally, bring together some leading scholars from around the world to discuss the matter - and the result is a hugely impressive collection of essays on one of the burning issues of our time. This volume is definitive - the necessary starting point for future debate.'

- Paul S. Adler, University of Southern California, US

'This volume provides an extensive and comprehensive overview of current research and theory about why and how corporations should play a more active role in fulfilling their global citizenship obligations and responsibilities. Its contributors include many of the most important and influential scholars in the field of corporate social responsibility from both Europe and the US. An important strength of this volume is the diversity and breadth of the dimensions of corporate citizenship that it explores in depth. This volume provides an important resource to scholars, managers, and activists interested in promoting corporate citizenship.'

- David Vogel, University of California, Berkeley, US
