## Combinations of Intelligent Methods and Applications: Proceedings of the 2nd International Workshop, CIMA 2010, France, October 2010 (Smart Innovation, Systems and Technologies)

The combination of different intelligent methods is a very active research area in Artificial Intelligence (AI). The aim is to create integrated or hybrid methods that benefit from each of their components. Some of the existing efforts combine soft computing methods either among themselves or with more traditional AI methods such as logic and rules. Another stream of efforts integrates machine learning with soft-computing or traditional AI methods. Yet another integrates agent-based approaches with logic and also non-symbolic approaches. Some of the combinations have been quite important and more extensively used, like neuro-symbolic methods, neuro-fuzzy methods and methods combining rule-based and case-based reasoning. However, there are other combinations that are still under investigation, such as those related to the Semantic Web.

The 2<sup>nd</sup> Workshop on “Combinations of Intelligent Methods and Applications” (CIMA 2010) was intended to become a forum for exchanging experience and ideas among researchers and practitioners who are dealing with combining intelligent methods either based on first principles or in the context of specific applications. CIMA 2010 was held in conjunction with the 22<sup>nd</sup> IEEE International Conference on Tools with Artificial Intelligence (ICTAI 2010). Also, a special track was organized in ICTAI 2010, under the same title.

This volume includes revised versions of the papers presented in CIMA 2010 and one of the short papers presented in the corresponding ICTAI 2010 special track. It also includes a paper of the editors as invited.

### **From reader reviews:**

#### **Patricia Spear:**

This Combinations of Intelligent Methods and Applications: Proceedings of the 2nd International Workshop, CIMA 2010, France, October 2010 (Smart Innovation, Systems and Technologies) are reliable for you who want to become a successful person, why. The explanation of this Combinations of Intelligent Methods and Applications: Proceedings of the 2nd International Workshop, CIMA 2010, France, October 2010 (Smart Innovation, Systems and Technologies) can be on the list of great books you must have is giving you more than just simple reading through food but feed an individual with information that perhaps will shock your previous knowledge. This book is definitely handy, you can bring it everywhere you go and whenever your conditions both in e-book and printed ones. Beside that this Combinations of Intelligent Methods and Applications: Proceedings of the 2nd International Workshop, CIMA 2010, France, October 2010 (Smart Innovation, Systems and Technologies) forcing you to have an enormous of experience like rich vocabulary, giving you demo of critical thinking that could it useful in your day pastime. So , let's have it and luxuriate in reading.

#### **Kenneth Sisk:**

Reading a book to get new life style in this yr; every people loves to study a book. When you go through a book you can get a lot of benefit. When you read books, you can improve your knowledge, since book has a lot of information on it. The information that you will get depend on what types of book that you have read. In order to get information about your examine, you can read education books, but if you want to entertain yourself you can read a fiction books, these kinds of us novel, comics, and also soon. The Combinations of Intelligent Methods and Applications: Proceedings of the 2nd International Workshop, CIMA 2010, France, October 2010 (Smart Innovation, Systems and Technologies) will give you new experience in reading a book.

#### **Shanon Stephens:**

Is it an individual who having spare time then spend it whole day through watching television programs or just lying down on the bed? Do you need something totally new? This Combinations of Intelligent Methods and Applications: Proceedings of the 2nd International Workshop, CIMA 2010, France, October 2010 (Smart Innovation, Systems and Technologies) can be the response, oh how comes? A fresh book you know. You are thus out of date, spending your free time by reading in this new era is common not a geek activity. So what these publications have than the others?

#### **Ann Birdsell:**

What is your hobby? Have you heard this question when you got college students? We believe that that issue was given by teacher on their students. Many kinds of hobby, Everyone has different hobby. And you know

that little person just like reading or as reading become their hobby. You need to understand that reading is very important and book as to be the thing. Book is important thing to include you knowledge, except your own teacher or lecturer. You see good news or update regarding something by book. Numerous books that can you choose to adopt be your object. One of them is niagra Combinations of Intelligent Methods and Applications: Proceedings of the 2nd International Workshop, CIMA 2010, France, October 2010 (Smart Innovation, Systems and Technologies).
