Origins of Consciousness: How the Search to Understand the Nature of Consciousness is Leading to a New View of Reality Adrian David Nelson

In recent years science and philosophy have seen a resurgence of open-mindedness toward deeper views of consciousness. This book explores ideas and evidence now changing the way scientists and philosophers approach the place of consciousness in the universe. From the frontiers of modern physics and cosmology to controversial experiments exploring telepathy and mind-matter interaction, the emerging view promises to change how we understand our place in the universe, our relationship to other life, and the nature of reality itself.
