## **The Essence of Home: Design Solutions for Assisted Living Housing** William J. Brummett

Written for architects, designers, and anyone involved in planning and designing assisted living facilities, *The Essence of Home* offers a fresh look at an area of design that is becoming increasingly important as the elderly population continues to grow exponentially. Through in-depth interviews with residents, staff, administrators, and family members, as well as an exhaustive review of architectural and medical literature, author William Brummett has identified what it takes to make a facility feel like "home." It is not enough to merely add cosmetic or decorative touches to the typical hospital or nursing home structure; rather, the facility must be designed specifically with a sense of home in mind, taking into account not only the physical capabilities and limitations of the residents, but the emotional and psychological needs as well. *The Essence of Home* looks at 38 significant problem-solving design considerations, and contains two in-depth case studies. Detailed illustrations and graphics provide a visual sense of the concepts discussed in the text. An annotated bibliography and comprehensive list of references provide additional sources of information.
