What makes us so afraid of bears.... Is it a rational fear?

Bears have been inspiring humans for thousands of years with their beauty, power and strength. Pictographs found in central Montana that date back 3,000 years, illustrate just how important bears were to human survival. Over the years bears have emerged as a symbol of real wilderness as well as an object of both admiration and fear by humans.

In this book you will discover the truth about bears and the truth about the biggest prehistoric bear in the history of all time (hint: it once lived in South America) and how it made our ancestors look upon it in awe. This children's book sets the record straight about the life and times of bears. (Don't be misled by Hollywood, they get it wrong every time)

Not only is this a quality picture books for kids but it has amazing facts about 8 species of bear and 3 extinct bears from the prehistoric era.

This book is filled with:

- Large quality pictures
- Bear facts
- Large easy to read font
- A quality interactive animal book
