The authors of the international bestseller *Business Model Generation* explain how to create value propositions customers can't resist

Value Proposition Design helps you tackle a core challenge of every business — creating compelling products and services customers want to buy. This practical book, paired with its online companion, will teach you the processes and tools you need to succeed.

Using the same stunning visual format as the authors' global bestseller, *Business Model Generation*, this sequel explains how to use the "Value Proposition Canvas" a practical tool to design, test, create, and manage products and services customers actually want.

Value Proposition Design is for anyone who has been frustrated by business meetings based on endless conversations, hunches and intuitions, expensive new product launches that blew up, or simply disappointed by the failure of a good idea. The book will help you understand the patterns of great value propositions, get closer to customers, and avoid wasting time with ideas that won't work. You'll learn the simple but comprehensive process of designing and testing value propositions, taking the guesswork out of creating products and services that perfectly match customers' needs and desires.

Practical exercises, illustrations and tools help you immediately improve your product, service, or new business idea. In addition the book gives you exclusive access to an online companion on Strategyzer.com. You will be able to complete interactive exercises, assess your work, learn from peers, and download pdfs, checklists, and more.

Value Proposition Design complements and perfectly integrates with the "Business Model Canvas" from *Business Model Generation*, a tool embraced by startups and large corporations such as MasterCard, 3M, Coca Cola, GE, Fujitsu, LEGO, Colgate-Palmolive, and many more.

Value Proposition Design gives you a proven methodology for success, with value propositions that sell, embedded in profitable business models.

And so there are a lot of benefits that you will get when one buys this book.

Jillian Harrington:

As a student exactly feel bored in order to reading. If their teacher inquired them to go to the library or even make summary for some guide, they are complained. Just minor students that has reading's soul or real their passion. They just do what the trainer want, like asked to go to the library. They go to right now there but nothing reading critically. Any students feel that reading through is not important, boring along with can't see colorful pics on there. Yeah, it is for being complicated. Book is very important in your case. As we know that on this age, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore , this Value Proposition Design: How to Create Products and Services Customers Want (Strategyzer) can make you really feel more interested to read.
