Power Politics in Asia's Contested Waters: Territorial Disputes in the South China Sea (Global Power Shift)

This volume offers a comprehensive and empirically rich analysis of regional maritime disputes in the South China Sea (SCS). By discussing important aspects of the rise of China's maritime power, such as territorial disputes, altered perceptions of geo-politics and challenges to the US-led regional order, the authors demonstrate that a regional power shift is taking place in Asia-Pacific. The volume also provides in-depth discussions of the responses to Chinese actions by SCS claimants as well as by important non-claimant actors.
